PROFILE

Full-Stack Web Developer passionate about crafting seamless, user-centric web experiences. Proficient in the MERN stack, blending design with robust technical expertise.

EDUCATION

Bachelor of Technology, Information Technology <i>Dr. Akhilesh Das Gupta Institute of Professional Studies, affiliated with GGSIPU</i> CGPA: 9.5 (up to 6th Semester)	2021 – 2025 New Delhi, India
Intermediate (<i>Lt. Col. Mehar Little Angels Senior Secondary School</i>) Achieved 95.17% in PCM with Computer Science	2020 – 2021 New Delhi, India
High School (<i>Lt. Col. Mehar Little Angels Senior Secondary School</i>) Achieved 96.17%	2018 – 2019 New Delhi, India

PROFESSIONAL EXPERIENCE

- RASH Technologies**, Full-Stack Web Development Intern September 2024 - Present | Delhi
- Collaborated on the development of MERN stack web apps, enhancing user experience with responsive front-end and optimized back-end. One example is a full stack web app made for **Paras Insurance** 🔗
 - Assisted in code reviews, debugging, and deployment using Git.

TECHNICAL SKILLS

- Languages:** JavaScript, JAVA, SQL
- Frameworks:** MongoDB, Express.js, React.js, Node.js, Tailwind CSS, HTML, CSS, Bootstrap
- Tools:** Git, Postman, GitHub, VS Code

PROJECTS

- SyncSpace** 🔗
- Developed a Reddit-like **MERN stack** web application that allows users to create and join subspaces, post content, comment, and interact with other members in a community-driven environment.
 - Implemented robust user authentication and authorization mechanisms using **JWT**, ensuring secure access and management of user sessions.
 - Designed and built an interactive and responsive user interface with React.js, Bootstrap, and Material-UI, providing an engaging and seamless experience for users across any device.
 - Integrated Multer and **Cloudinary** for efficient media storage and management, enhancing website speed and performance by offloading file handling and optimizing image delivery.

[Source Code](#) 🔗

- CodeSync** 🔗
- Developed a real-time code collaboration platform using the **MERN-stack**, enabling users to write, edit, and debug code simultaneously with features like an **integrated console**, collaborative whiteboard, and live chat for seamless communication.
 - Used **Socket.IO** to implement real-time code synchronization, ensuring instantaneous updates and smooth collaboration among users.
 - Designed and developed a clean, modern UI with **React.js**, **Tailwind CSS**, and Material-UI, focusing on ease of use and minimizing distractions to enhance user productivity.
 - Conducted extensive testing and optimization, focusing on minimizing latency.

[Source Code](#) 🔗

- Sevakrit** 🔗
- Developed a web app to connect potential donors to nearby NGOs to tackle resource wastage by sharing surplus with NGOs, using **Node.js**, **Express.js**, and **MongoDB**.
 - Integrated an interactive map using the Leaflet JS library and OpenStreetMap API.
 - Implemented features for admins to monitor and verify NGOs, users, and filter feedback.
 - Implemented a custom user authentication system for NGOs, users, and admins with bcrypt for data security and cookies for persistent user sessions.

APPRENTICESHIP - IBM SUMMER TRAINING

- Designed and deployed dynamic websites covering the full scope of **Full Stack Development**.
- Learned and implemented fundamental front-end technologies alongside modern frameworks like Node.js, Express.js, React.js, and Angular.js, with persistent data storage using XAMPP.
- Created engaging and interactive web applications, including a **Spotify-like web player** [↗](#) as a primary project, along with smaller daily projects like a pizza shop webpage, an e-commerce website, and several others.

CERTIFICATIONS

Data Structures and Algorithms with JAVA – Coding Blocks [↗](#)

This course provided an in-depth understanding of data structures and algorithms using JAVA.

Summer Training Project Completion Certificate – IBM [↗](#)

This training provided an in-depth understanding of full-stack web development, covering both front-end and back-end technologies.

The Complete 2024 Web Development Bootcamp – Udemy [↗](#)

This course provided a comprehensive understanding of full-stack web development, including responsive design and industry best practices.

AWARDS

Secured 14th position out of 50 teams in T-Hacks 6.0 – IEEE ADGITM [↗](#)
